South Metropolitan Health Service (SMHS)

SMHS Health Promotion

Where does health promotion fit in the  
patient journey continuum? ➤

### Priority areas:

- Reducing use of tobacco, vapes and other products
- Promoting healthy eating and active living
- Reducing harms from alcohol use
- Preventing injuries and promoting safer communities
- Optimising mental health and wellbeing

### Community setting:

- Supporting Local Government with the public health planning process, including the provision of local health and wellbeing data
- Building the capacity of Local Government to implement best practice health promotion initiatives

### Hospital setting:

- Supporting the implementation of WA Health Smoke Free Policy
- Supporting the implementation of WA Healthy Options Food and Nutrition Policy
- Supporting health and wellbeing among staff and hospital community

Overarching  
values:

Aboriginal Health and  
Wellbeing

Equity and  
Inclusion

Climate Health and  
Sustainability
